

Getting the best bang for your buck with unified endpoint management (UEM)

RIGHT NOW, THE AVERAGE IT ORGANIZATION IS PAYING...

= Average cost per help desk call.¹

= Cost-per-year of support calls for password resets *alone*.¹

...AND THE CLOCK CONTINUES TICKING

HOW MUCH OF A TIME-SUCK ARE YOUR EMPLOYEES CREATING FOR YOUR TEAM when they ask for assistance with learning curve challenges?

With artificial intelligence (AI) and natural language processing (NLP), IBM® MaaS360® Assistant— included in Deluxe packaging— provides mobile employees with a sidekick they can depend on for immediate help. Without depending on YOU.

HOW MANY HOURS DO YOUR ADMINISTRATORS WASTE researching the best security policy inputs across passwords, container and restrictions?

By displaying cognitive recommendations during policy configuration, MaaS360 Policy Recommendation Engine—included in Essentials packaging—eliminates the need for IT to conduct research by dynamically sharing peer best practices by industry, deployment size and location.

Money—saved. Time—saved.

WITH OTHER UEMs, HIDDEN COSTS CONTINUE TO RACK UP...

If you're anything like your peers, you were expecting your UEM to provide:

- Identity and access management (IAM)
- Single sign-on (SSO) and multi-factor authentication (MFA) capabilities
- Patch and update management for laptops and desktops

...WHAT YOU WEREN'T EXPECTING WAS TO BREAK THE BANK IN THE PROCESS.

IBM MaaS360 | With Watson

USD0

Cost of MaaS360 Identity Management. (A standard offering with all purchases).

What other solutions will charge you:

USD2 to 9

Typical license cost for cloud-based IAM, per user, per month.¹

USD1

Cost for MaaS360 Patch and Update Management, per device, per month.

vs.

USD2.5 to 5

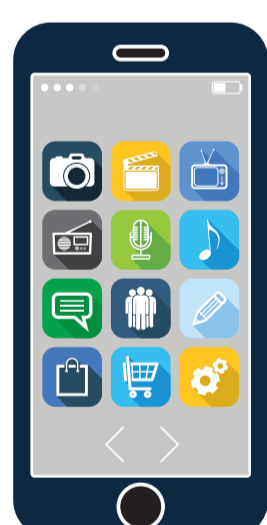

Typical license cost for client management, per device, per month, plus S&S!²

GOT APPS? OPEN THAT WALLET...

USD100 to 500 thousand
Cost range to develop an enterprise mobile app.³

Do you know which apps are most used? Least used? Broken? Never discovered?

Without MaaS360, you're just guessing—and wasting time and money.

CAPTURE ROI ON UEM WITH MAAS360

With MaaS360, you can stop paying for:

Advanced features that should be available standard
Help desk calls that cost millions and hinder productivity
Underutilized or underperforming apps

Advanced MaaS360 features—included with any edition

- Identity Management
- Policy Recommendation Engine
- Container App
- Plus, Patch and Update Management available as an optional add-on

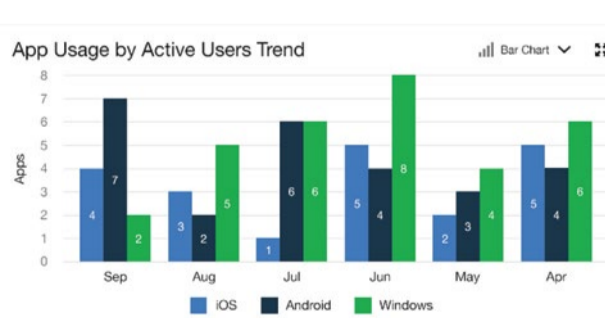

Working with AI Assistant, your employees can:

- Ask a question, get an answer
- Look up emails and find attachments
- Coordinate their calendar and schedule meetings...all from one place!

With MaaS360 Business Dashboards for Apps you gain:

- Views of enterprise apps that need attention and investments
- Tracking of installs, usage and trends
- Awareness of issues before they're reported

Start saving. Get the most from your UEM investment. Start your free 90-day trial with ViewQwest
